VIEW DESIGN PORTFOLIO

Instructional designer with 10+ years in education and experience in digital course development, assessment design, and educator training. Translates learner needs and content requirements into measurable objectives, sequenced LMS modules, and feedback-rich practice. Combines instructional design certification from UCF with adult-learning experience, districtwide facilitation, and data-informed content evaluation.

Course resources shared countywide

PROFESSIONAL EXPERIENCE

Subject Matter Expert / Instructional Designer

Present

ICL Academy | Remote, Contract

- **Course redesign.** Redesign assignments and assessments for asynchronous online math courses (e.g., Algebra 1), aligning them to Common Core standards and course learning objectives.
- **Interactive content.** Build interactive, multimedia math activities in Desmos and Amplify for self-paced learners.
- **Assessment design.** Develop formative and summative assessments with varied question types, improved feedback and performance-based tasks.
- **Independent delivery.** Work independently in Google Drive and Amplify from a course audit, meeting deadlines on a multi-month project.

Mathematics Teacher / Lead Teacher

2019–2026

Belleview High School | Marion County Public Schools

- **eLearning development.** Built modular Canvas courses with sequenced learning paths, instructional videos, study guides, and embedded assessments for asynchronous learning.
- **Learning analysis & design.** Analyzed learner needs and content standards; translated them into measurable objectives, learning progressions, and aligned course materials.
- **Assessment development.** Created reusable Canvas question banks aligned to learning objectives, with immediate feedback and on-demand practice.
- **Training facilitation.** Led district in-service and virtual professional development on curriculum design and Canvas course development; mentored educators on instructional planning.
- **Evaluation & iteration.** Used assessment results, formative checks, and LMS reporting to identify learning gaps and revise instructional materials.
- **Adoption & collaboration.** Created a Canvas course and study guide shared countywide; partnered with peers on alternative course versions.
- **Content development.** Produced instructional videos, guided notes, practice resources, and review materials that supported both classroom delivery and independent learning.
- **Performance support.** Designed targeted intervention resources and state-assessment preparation materials to reinforce prerequisite skills and close learning gaps.
- **Learning outcomes.** Recognized by school leadership for student proficiency rates among the district's highest and contributions to school learning gains.

EDUCATION & CREDENTIALS

Instructional Design Certification
University of Central Florida

Doctoral Student
Curriculum and Instruction
Instructional Design specialization
University of Central Florida

M.Ed.
Mathematics Education
University of Central Florida

B.S.
Social Studies Education
University of South Florida

DESIGN & L&D CAPABILITIES

Learner needs analysis

LEARNING DESIGN & DEVELOPMENT

01 DIGITAL LEARNING DEVELOPMENT

Asynchronous Canvas course & study guide

Audience & need. Secondary learners needed structured course content and assessment preparation.

Built. Sequenced LMS modules, instructional videos, study guides, and embedded assessments tied to learning objectives.

Reach. Course and study guide circulated countywide; alternative versions developed with peers.

02 ADULT LEARNING & FACILITATION

District professional development

Audience & need. Educators implementing curriculum guidance and developing Canvas courses.

Delivered. District in-service and virtual sessions on curriculum design, standards implementation, and Canvas course development.

Support. Mentored teachers and translated standards guidance into practical resources for peers.

03 ASSESSMENT & LEARNING EVALUATION

Reusable practice & feedback system

Built. Canvas question banks and aligned practice with immediate feedback.

Evaluated. Used assessment results and LMS reporting to identify misconceptions and revise instructional materials.

Use. Reusable assessments supported on-demand practice aligned to course objectives.

DESIGN METHODS

ADDIE · Dick & Carey
Gagné's Nine Events
Universal Design for Learning

Applied to learner analysis, measurable objectives, sequencing, assessment, and content revision.

DEVELOPMENT TOOLKIT

Multimedia & web

OpenShot · Adobe Photoshop
WordPress · Dreamweaver

Planning & production

Microsoft 365
Google Workspace
Storyboarding · Content curation

AI-ASSISTED DEVELOPMENT

Uses AI to draft assessment questions, feedback variants, learning maps, and Canvas templates.

Reviews outputs against learning objectives before learner use.

ADDITIONAL LEARNING EXPERIENCE

Mathematics Instructor

2017–2019

Jere L. Stambaugh Middle School
Polk County Public Schools

- **LMS-supported instruction.** Delivered differentiated learning experiences through LMS-based lessons, digital practice, and collaborative curriculum improvement work.

GED Instructor

2015–2016

Plant City High School
Hillsborough County Public Schools

- **Adult learning design.** Designed and delivered cross-disciplinary GED preparation for adult learners with varied prior knowledge and primary languages, adapting materials for accessibility and readiness.
